## Introduction

As a Licensed Gas Transporter, the following Charging Statement sets out the principles and methods used to determine charges for Gas Distribution Disconnection Services. This applies to individual disconnections at an **existing Domestic Property** (Annual Consumption Under 73,200 kWh's per annum) supplied from an Indigo Pipelines Limited (Indigo Pipelines) Network, as per our Gas Transporters Licence Condition 4b.

The operation of Indigo Pipelines' network assets has been contracted to SSE Enterprise Utilities a trading name of SSE Utility Solutions Ltd, part of SSE plc. SSE is a major utility with many years of experience building and operating public gas networks. Indigo Pipelines aims to recover those costs it reasonably expects to incur when we provide disconnection services via our contractor SSE Enterprise Utilities.

Charges reflect the cost of labour, materials and any other expenses required to carry out the work of the customers' requirements. Each cost element will include an appropriate level of overhead.
